

Technician Commitment

London and South-East Regional Network

London and South-East Regional Network

VISIBILITY

Ensure that all technicians within the organisation are identifiable and that the contribution of technicians is visible within and beyond the institution

CAREER DEVELOPMENT

Enable career progression opportunities for technicians through the provision of clear, documented career pathways

RECOGNITION

Support technicians to gain recognition through professional registration and external awards schemes

SUSTAINABILITY

Ensure the future sustainability of technical skills across the organisation and that technical expertise is fully utilised

Background

- Established in 2018
- Co-leads are Stephen Franey, King's College London and Karen Henderson, University of Reading
- Currently 17 universities are involved
- All welcome
